## Account Setup on Fill It Now

There are a few steps that need to be completed before your products will be available for sale on the site. Once these steps are completed, the account is ready to be opened.

Log into: <https://app.marketpush.net/fillitnow>

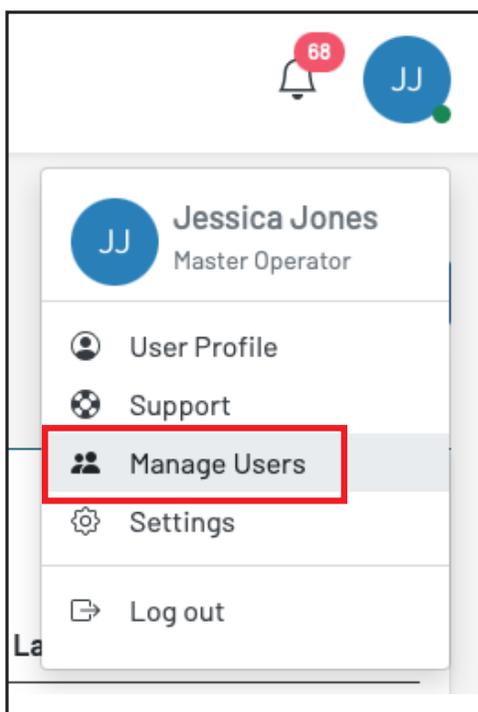

1. Complete the User Profile set up
  - a. First name, last name, profile pic (optional), and a contact phone number
  - b. Complete the notification settings for how you want to be notified from the portal
    - i. Review preset notifications
    - ii. Choose notifications that best fit your business
2. Create your warehouse shipping locations in 'Shipping'
3. Add products and offers
  - a. See 'Create Products on Fill It Now' and 'Create Offers on Fill It Now'

## User Management

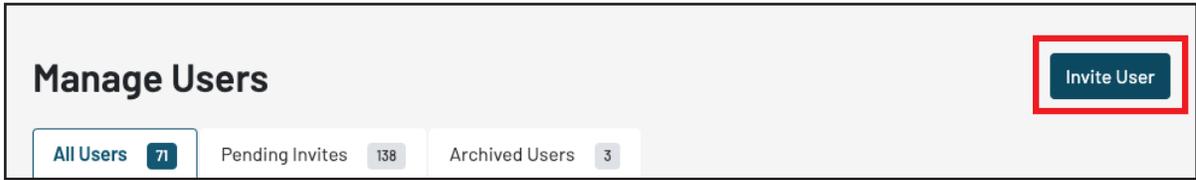

Your company can have almost unlimited users on the site.

*Be sure to ensure all former employees are removed from your account.*

1. Click on your seller icon in the top right corner
  - a. Select 'Manage Users'

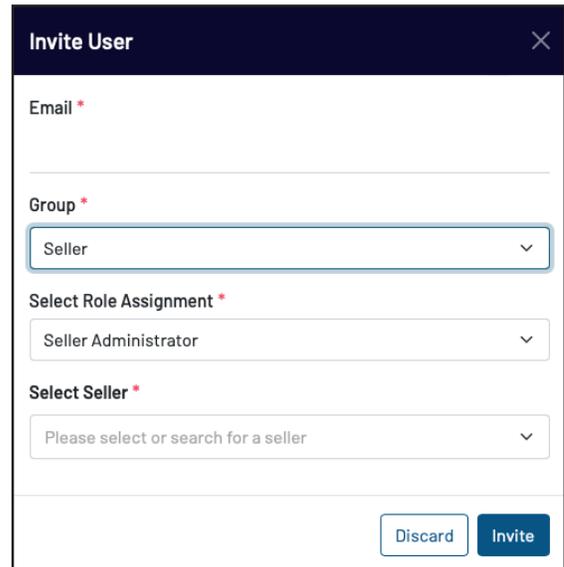

- b. Click on 'Invite User' in the upper right corner of the new screen

- i. Add user email
- ii. Select appropriate role
- iii. Select appropriate company
- iv. Click on 'Invite'

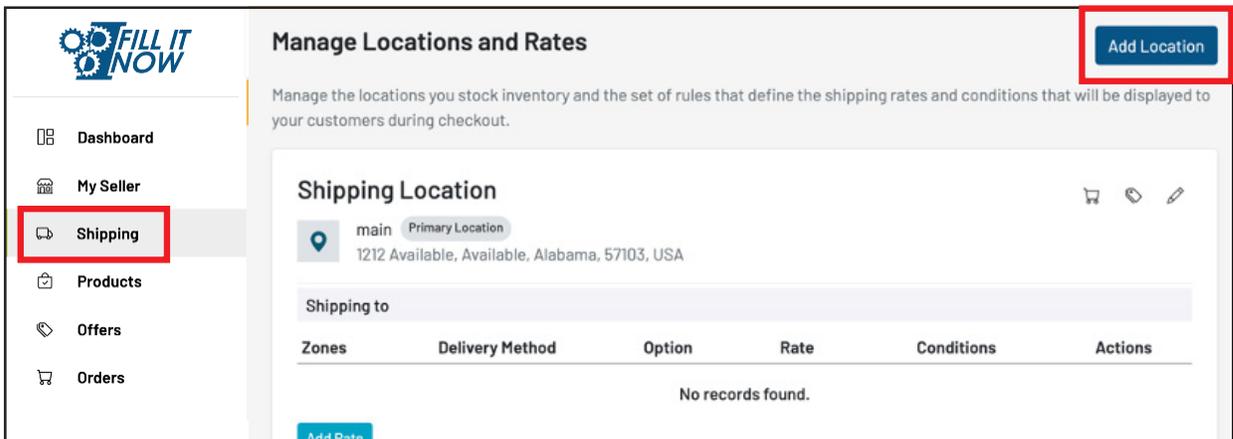

NOTE: Invites expire after 7 days

## Shipping Setup

IMARK/BUE HAWK has pre-selected and set up shipping methods and carriers that customers can select from when checking out to ensure national coverage. As a seller, you will need to add your warehouse location(s) in the Shipping section of the portal as this identifies to the buyers where their products will ship from and allow them to select the best shipping method and carrier based on their urgency.

- 1. Click on 'Shipping' on left hand ribbon
  - a. Click on 'Add Location'
    - i. Add warehouse name
    - ii. Add address
  - b. Save

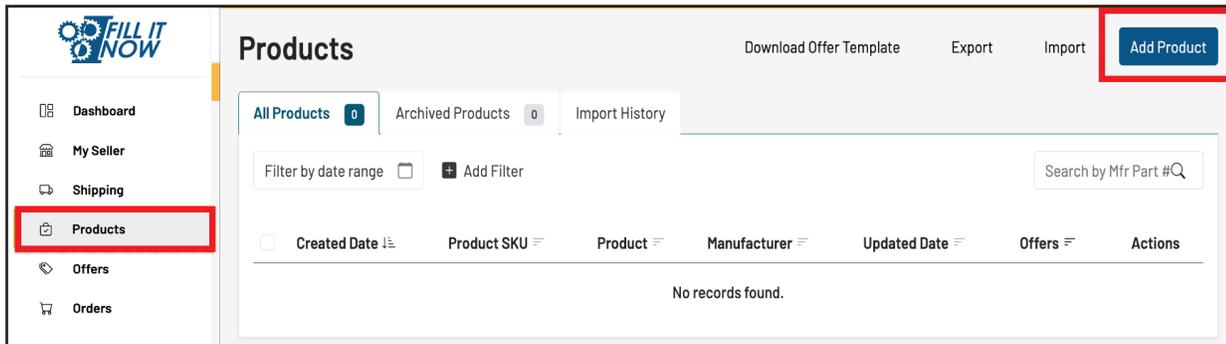

## Create Products on Fill It Now

This is the first step in becoming a seller on the Fill It Now site. In particular, this creates the products but does not allow those products to be purchased.

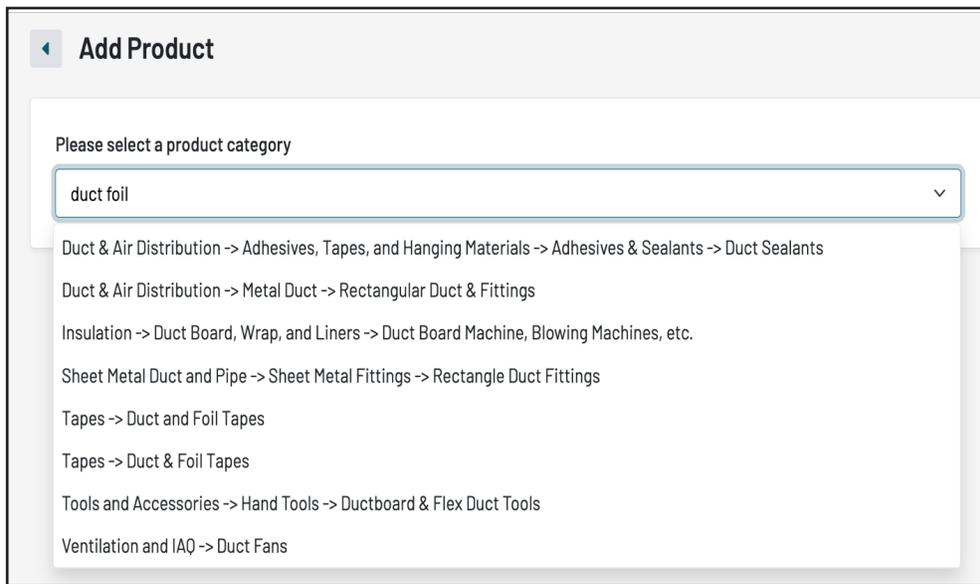

Once this step is completed, see directions for creating 'Offers'.

### One at a time

1. Click on 'Add Products'

- a. Select appropriate product category

- b. Fill in required fields
  - i. Manufacturer, SKU, Product title, Man. Part number
- c. Fill in optional fields if available
  - i. Product description and image
- d. Save

## Excel Import

### 1. Create necessary file

  - i. Assign MarketPush categories to your category names

### Import Products

This wizard will guide you through a step-by-step process to upload and map the fields from your product import file to the fields in MarketPush.

1. Choose a file
2. Map Category Attributes
3. Review
4. Process

#### Map Categories

⚠ Products with unmapped categories **will not** be imported during the import process.

Categories	Map to
Tissue Holder	<input type="text" value="Please select or search for a product category..."/>
Robe / Utility Hook	<input type="text" value="Please select or search for a product category..."/>
Body Spray / Body Jet	<input type="text" value="Please select or search for a product category..."/>
Drawer Knob	<input type="text" value="Please select or search for a product category..."/>
Handle Kit	<input type="text" value="Please select or search for a product category..."/>
Air Switch	<input type="text" value="Please select or search for a product category..."/>

- 3. Finalize import
  - a. Import History tab will show status of every upload

4. Review final result
  - a. Navigate to 'Products' on left hand ribbon to review the results and ensure all of your data came through correctly

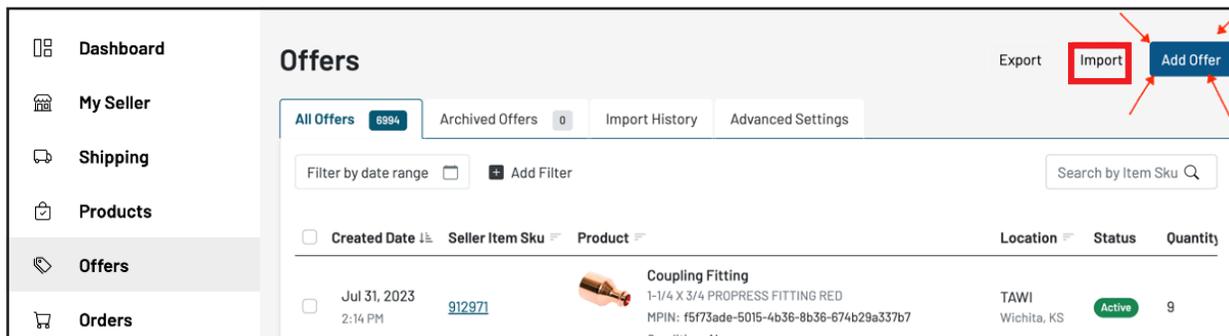

## Create Offers on Fill It Now

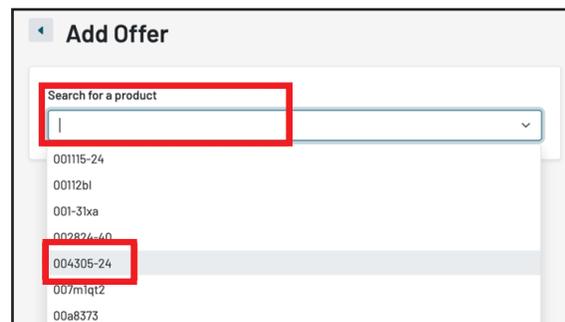

This is the second step in becoming a seller on the Fill It Now site. In particular, this allows your products to be purchased. Once this step is completed, your 'store' is complete.

### One at a time

1. Click on 'Add Offer'

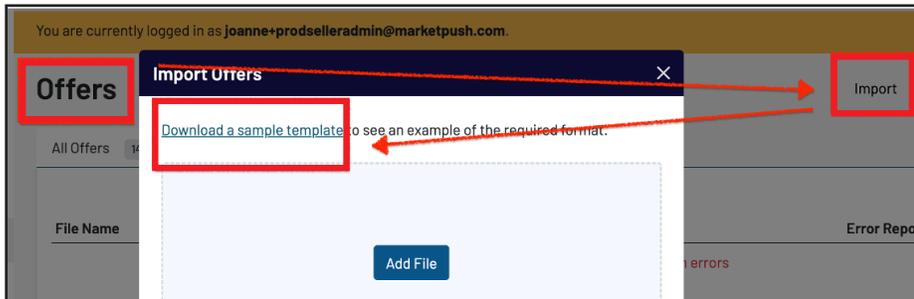

- a. Select appropriate product
- b. Required columns to be included
  - i. Member SKU, location, condition, allow returns, stock quantity, minimum order quantity, and quantity/unit price
- c. Optional columns
  - i. Description, lead time to ship, maximum order quantity, start date, and end date
- d. Save

## Excel Import

1. Create necessary file
  - a. A sample file is available
    - i. Click on 'Import' and chose 'Download a sample template'

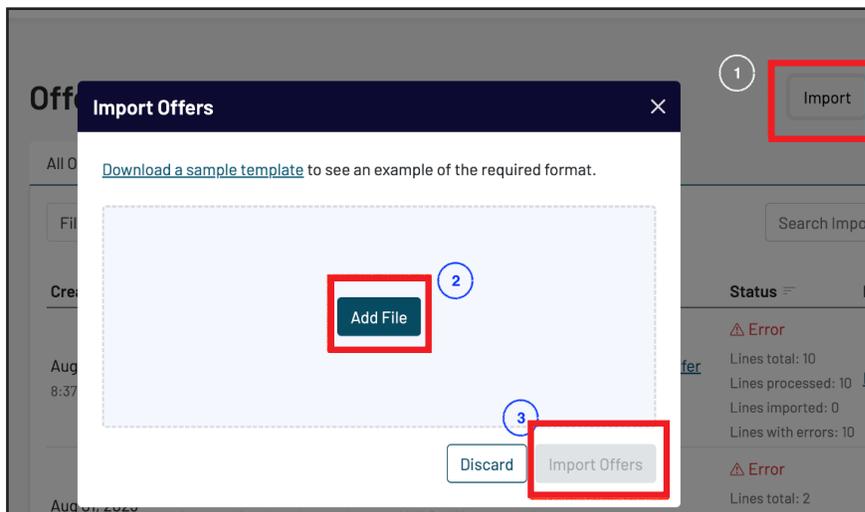

- b. Required columns to be included
        - i. Manufacturer SKU, Member SKU, location, condition, allow returns, stock quantity, minimum order quantity, and quantity/unit price
      - c. Optional columns
        - i. Product image, url, UPC code, and product long description

- b. Offer status
  - i. Active – available for purchase
  - ii. Inactive – not purchasable
    1. Seller account is not open, the offer's available start date has been set with a future date, and the offer's available end date has passed
  - iii. Out of stock – no stock available

### Tips

- Decide which employees will manage sales/orders, be allowed to purchase, and update offer information (QOH and pricing).
- Set up one product group at a time until your team is comfortable with the process.
- Set up main or central warehouse first and expand to other locations after streamlining process.
